

Alki Bakery Catering temporary limited menu

We're Here for You! ...

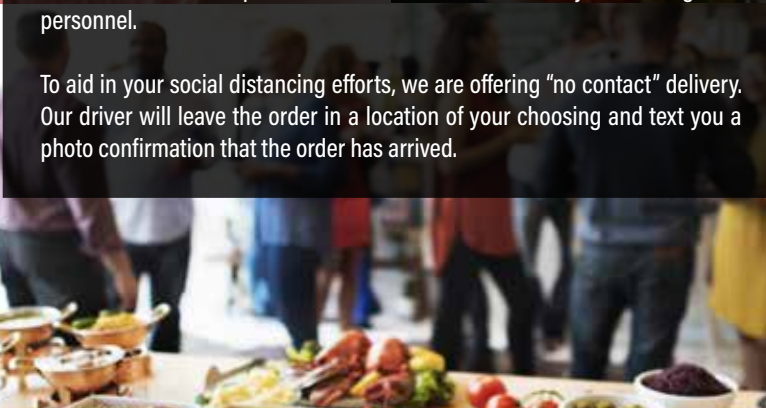

During these challenging times the safety and health of our customers, staff and community are our top priorities. In response to the pandemic we have been closely monitoring the COVID-19 situation and among other precautions we have chosen to do the following:

Screen all kitchen staff and delivery drivers daily for signs of fever or illness. No employee with any sign of fever or illness is allowed to enter the production zone or stay in the building. All vendors are subject to the same screening.

Prohibited all non-essential visitors and vendors from entering our production facility. Also we have restricted any person who has traveled outside of the country, in the last two weeks, from entering the building or coming to work.

Aggressively increased cleaning, sanitizing, and disinfecting of all high touch areas. Actively require all suppliers to provide written assurance of their efforts to control the spread of the virus in their own facility and among their personnel.

To aid in your social distancing efforts, we are offering "no contact" delivery. Our driver will leave the order in a location of your choosing and text you a photo confirmation that the order has arrived.
